MIAMI BUSINESSWOMAN LAUNCHES CONGRESSIONAL CAMPAIGN AGAINST WILSON

MIAMI FL, AUGUST 4TH, 2023 – Longtime Republican Miami businesswoman, Patricia Gonzalez, announces her Congressional campaign against Frederica Wilson in Florida's 24th district, which currently encompasses parts of Miami, Miami Beach, Miami Gardens, Miramar, Pembroke Pines and Opa Locka. “I know the district was a Democrat stronghold for the past few election cycles, but now that people who typically voted Democrat have seen the death, destruction, job losses, shutdowns and Anti-American policies of the Democrat party in action, I feel confident they just want their American Dream back.” Said Gonzalez. “There is no way they can achieve that with Democrats at the helm.”

The filing fee to run for Congress in Florida is \$10,440.00, which must be paid in a few months.

“Wilson has been for sale to the highest bidders for years. This indicates to me that she doesn't have the support of our district and has only been getting by because she has a D behind her name. That strategy will no longer work for Democrats, as witnessed by the 2022 elections.” said Gonzalez. She was inspired to run because of the leadership and successful, pro-American policies of other Republicans such as Governor Ron DeSantis, President Trump and all the Republicans nationwide who turned their districts from blue to red this year.
